### UPDATE 6/5/2017

All shipping costs are actual based on package size, weight, and zip code. Please [email](#) for shipping estimates. I currently invoice via Paypal for purchases. **Complete and accurate address, phone number, and details of order must be provided with payment in the payment comment box.**

FedEx shipping is preferred. Overnight shipping has live arrival and ability for refund, credit, or reshipment. Reshipping costs not included. **Estimates will also be provided for FedEx 2nd day, but it can be difficult to keep temperature stable from zone to zone, so live arrival guarantee only covers credit-not refund, on second day shipping.**

FedEx shipping is Monday through Wednesday, I will not ship packages for delivery on a Saturday. **No exceptions.**

And please remember **NO PAYPAL GIFT PAYMENTS!!**

As always, there are many things I have in my fish room that may not be listed, don't hesitate to ask if you are looking for something I used to carry or are looking for something special. The stock list is a revolving one, as things come out of quarantine each week and get sold out. Please check back frequently for availability or feel free to email me with any special requests in order to combine shipping.

#### **Shrimp**

Culls \$2, few

Amano \$3, SOLD OUT- more coming
